

Overview

Our team is able to provide you with efficient and innovative solutions for your business goals. Our deep regulatory knowledge allows you to broaden your opportunities while remaining compliant with the law.

Whether advising companies on initial public offerings, structuring investment funds or advising fund administrators on their daily compliance routines, VPBG has the needed experience to assist you in all capital markets matters. We work side-by-side with our clients, applying an innovative yet practical approach to all aspects of their business.

Our key services include:

- Public or private offerings of stocks, depositary receipts, commercial paper, debentures, bonds and other securities;
- Registration of companies with the Brazilian Securities Commission (CVM);
- Structuring of investment funds of any kind and advisory on investment funds regulatory issues and their routine obligations with the CVM;
- Issuance of debentures and commercial papers and advisory on debt renegotiation;
- Compliance with regulatory obligations of public companies and investment funds, such as *formulários de referência* (FR);
- Counseling on regulations applying to publicly held companies and on corporate governance matters;
- Advice on administrative proceedings before CVM.

In this sense, our team encompasses the knowledge and the experience that you need to navigate the fast-paced and continuously changing environment of capital market regulations and their players.
