

Overview

Rely on our Intellectual Property and Technology team to address your complex legal questions with advice tailored to your business needs. From protecting intellectual property rights, through advising on data security issues, technology licensing and sourcing strategies, you receive practical and informed guidance. We can help you protect and value your IP assets:

- Registration and monitoring of trademarks in Brazil and abroad;
- Software registration and licensing;
- Domain name registration;
- IP contracts (both domestic and international), such as development, distribution, franchising, licensing and transfer of technology;
- Protection of copyright;
- Unfair competition;
- Digital law;
- Privacy and information management;
- Due diligence on IP matters.
